ed and urged." suance of this resolution Mr. Overstreet, of Indiana, who introduced and who is in general charge of it, to-morrow will submit a resolution asking that a special rule be reported for immediate consideration of the measure. The terms of this special rule are practically agreed upon, and provide that the debate will begin next Monday, with a final vote at the close of the week.

The unanimous approval to the bill came after two hours of discussion and the adoption of two amendments approved by the | the committee on foreign relations. It exframers of the bill. When the meeting be- presses "profound and heartfelt sympathy gan Mr. Cannon surrendered the chair to Mr. Hepburn in order to present his views of some modifications he thought desirable. These related to the national banking features of the bill, and Mr. Cannon gave it as | of assurance of Alexander I, the abolition his individual opinion that this branch of of the Finnish Constitution and the consethe subject might better be modified or emitted. He distinctly stated, however, tion of a resolution requiring the President, that he supported the bill as a whole and if not incompatible with public interests, to would vote for it, and this was further shown when he voted for the resolution of approval. Mr. Cannon's suggestions did such information concerning the proposed not take the form of amendments and were | sale as might be in possession of the gov-

The main amendment was proposed by the framers of the bill to clear up some ambiguity on the present law. It is to be a new section, numbered 9, and is as follows: "Section 9. That Section 10 of an act approved July 12, 1882, entitled 'An act to ennational banking associations to extend their corporate existence,' be and the same is amended so as to read as follows: Section 10. That upon a deposit of bonas described in Sections 5159 and 5160 of the Revised Statutes, the association making the same shall be entitled to receive from the controller of the currency circulating notes of different denominations in blank registered and countersigned as provided by law, not exceeding the par value of the United States bonds so transferred and delivered, and at no time shall the total amount of such notes issued to any such association exceed the amount at such time paid in of its capital stock, and the proviions of Sections 5171 and 5176 of the Revised Statutes are hereby repealed."

Another amendment is to Section 4 of the oill, inserting the word "redemption" before "fund," to make more plain where reicemed notes and certificates are to be

ment relating to that feature known as the impounding of the greenbacks, but he was satisfied from explanation given him that the amendment was not essential and it was withdrawn. There were some other suggestions and tentative amendments, but none of them was pressed and the resolution of approval was then unanimously

Mr. Overstreet and his associates who framed the bill were warmly congratulated on having been able to command such complete unanimity and approval, which is reded as giving assurance that the bill will be passed before the Christmas recess.

Views of Hugh H. Hanna. WASHINGTON, Dec. 6.-Mr. H. H. Han-

na, chairman of the Indianapolis Monetary Commission, speaking to-day of the financial bills before Congress, said:

"The bills prepared by the Republicans of the Senate finance committee and by the caucus committee of the Republicans of the House, have so much that is courageously comprehensive of the needs for eliminating all doubt as to gold being the standard and unit of value of our monetary system that it is wise to encourage the passage of these tills by the respective houses, and reserve all suggestions for additions or changes until the conferees of the two houses take up the subject. The bills are splendid expressions of the purpose to fu.ill the dge for gold-standard legislation, and should greatly encourage the people to believe that all proper revision of our monetary laws is possible of accomplishment. Both bills contain provisions for gold reserves and their maintenance. The gold reserve provided by the Senators is ample for maintaining the interchangeability of all government moneys, and the changes in minations of paper currency are safe and important aids to its feasible and easy accomplishment. If such full interchangeability can be included, it would perfect the establishment of the gold standard beyond risk of change, except by the deliberate action of the law-making government."

RECIPROCITY TREATIES.

Agreements with France and Britain

Sent to the Senate.

WASHINGTON, Dec. 6 .- The reciprocity treaties negotiated during the congressional recess were transmitted to the Senate today and in the executive session were ordered printed and referred to the committee on foreign relations. The most important of these treaties is that between the United States and France for reciprocal reductions of tariff rates. The terms of this and the other treaties are not yet officially made public, either by the State Department or the Senate. The reductions allowed the United States are, however, understood to comprise all the articles of the French minimum tariff list, with the following exceptions: Horses, stallions, mares and colts, eggs, cheese, butter honey, clover seed and luzerne, sugar, chicory feed, type, porcelain, cardboard, tanned hides, leather soles, boot and shoe uppers, boots, shoes, belting, dynamo electric machines, machinery tools, parts of dynamos and electric machines.

The reciprocity treaties negotiated with Great Britain are four in number, for Jamaica, Guina, Barbadoes and Bermuda, the Trinidad treaty having been witndrawn. In the main the concessions to the colonies are on food products, while reductions on manufactured goods, flour, etc., are understood to be the chief advantages given to the United States.

NEW YORK, Dec. 6 .- The entire day in the trial of Roland B. Molineux was taken up in the examination of Rudolph Heiles, a warm friend of Molineux, and the introduction of letters as evidence in the case. Heiles was on the stand yesterday, and the testimony which he gave then, in answer to the prosecuting attorney's rigid questioning, was of a sensational nature, tending to place the prisoner in a bad light. To-day Mr. Weeks, counsel for Molineux, made an effort to shake Heiles's testimony, but the witness reiterated his test'mony that Molineux hated Cornish and Harpster, and that he had endeavored to have Cornish removed from the Knickerbocker Athletic Club and Harpster from his employment. A score of letters were clentified as having been written by Molineux, some to Harry Cornish, others to members of the Knickerbocker Athletic Club, the latter showing enmity to Cornish. One was identified by Helles as having been written by Molineux to Mrs. William Schleffer, a weilknown society woman in this city, and addressed "My Dear Sadie," announcing Mol ineux's approaching marriage to Miss

LATE RESIDENT OF GREENSBURG WHO DEFRAUDED UNCLE SAM.

Another Advance in Crude Oil-State Inspector on the Gas Situation-Death of Charles Fletcher.

Special to the Indianapolis Journal. GREENSBURG, Ind., Dec. 6.-Pension Examiner Lowe, of Columbus, was here yesterday looking after the pension claim of John W. Smith, which possesses some peculiarities. Smith served in the Third Kentucky during the war with Mexico and was granted a survivors' pension on account of that service, his postoffice address being given as Owenton, Ky., and his name was inscribed on the Louisville agency. He also applied for a pension on account of disabilities contracted serving in Company A. Sixteenth Indiana, and Company D, One-hundred-and-forty-eighth Indiana. In the latter regiment he served as lieutenant. His residence was given at Shelbyville, Ind. Under the act of June, 1890, he applied for and was granted a pension of \$10 per month, his residence being given as Snelbyville and his name was inscribed on the rolls of the Indianapolis agency. Subsequently he had the payment of his Mexican pension transferred to the Indianapolis agency and drew both pensions from the same agency. He had formerly lived in Decatur county and came here every quarter to execute his Mexican pension voucher, representing to the highest point in years. the notary that his postorfice was Hope, and that he lived with a son near there. Charles P. Fletcher, a Pioneer Railroad Builder of Indiana.

Special to the Indianapolis Journal. FORT WAYNE, Ind., Dec. 6.-Charles P. Fletcher, who built the Pennsylvania and Wabash Railways into Fort Wayne, died to-night of typhoid fever, at his home, in this city. Ar. Fletcher was a native of New Hampshire and was seventy-two years old. He was a pioneer in railroad building. In 1854 he built the Pittsburg, Fort Wayne & Chicago from Crestline to this city, and the following year built the Wabash from Defiance to Fort Wayne. The former road was the first to enter northern Indiana. In 1858 Mr. Fletcher established the first restaurant in Fort Wayne and a year later built the Summit City Hotel, now the Hasmon House. He served as deputy provost marshal during the war. He was a leading Republican for many years. For some years he owned the old Academy of Music.

The operators are still actively looking for the precious fluid, and leasers are very active in all portions of the State. The coming year is destined to be the greatest in the history of crude oil. The greatest drawback at the present time is the stringent gas laws of the gas belt. Many are awaiting the decision of the Supreme Court in the case of the State of Indiana vs. The Ohio Oil Company. Upon this depends the future of the great cleaginous wealth of this great State. At the present time there Indiana Natural and Illuminating Gas are fifty-four wells containing oil and gas | Company, with a capital of \$8,000,000, filed that are closed, and all are located in the papers of incorporation here to-day. Rise in the Price of Crude. Special to the Indianapolis Journal. MONTPELIER, Ind., Dec. 6.-The Standard Oil Company to-day raised the price of crude oil, Indiana going up 2 cents and Eastern oil 3 cents. Following are the market prices as quoted by the Selp purchasing agency: Tiona, \$1.79; Pennsylvania, \$1.64; Scio, O., \$1.64; Barnesville, \$1.54; Corning, \$1.47; New Castle, \$1.39; north Lima \$1.16; south Lima, \$1.11; indiana, \$1.11. Altogether, since the upward movement began, four months ago, oil has risen over 40 cents a barrel. Production is said to be 20,000 barrels a day below the shipment. The deficiency is being made up from the reserve stocks which the Standard carries, principally in Indiana, while an activity unequaled in the industry in the direction of searching for new territory prevails throughout the country. Refined oil, which is burned in the house of the people, has gone up from 21/2 to 31/2 cents, and at to-day's quotations was at

Supervisor Leach says it is showing up strong in all the inside towns, and there is no excuse for any shortage. In a few small towns, he says, the companies have neglected to keep their plants in good condition by drilling necessary additional wells. The strength of the flelu is well demonstrated in this city. A house to house inspection made by a local company revealed that hundreds of houses of four to six rooms are heated by a single cook stove and that one cook stove and one heater frequently heats houses of eight to ten rooms. Building and Loan Decision.

Special to the Indianapolis Journal. NEW ALBANY, Ind., Dec. 6.-Special Judge Cook, of Corydon, occupying the bench of the Floyd Circuit Court, has rendered a decision which affects holders of paid-up stock in building and loan associations. In the suit of Joseph Cheatham against the defunct Acton Building and Loan Association on a claim of \$500 for money borrowed by the association the court held that the association had no right under the law to borrow money and that any obligation for such transaction was null and void. The decision has occasioned much comment, as nearly all of the associations in which local people are interested have outstanding bonds on which money had been borrowed.

EDWARD BURNZ CONFESSES TO KILLING A POSTMASTER.

Both a "Bicycle Fiend" and a "Cigarette Fiend," and Was Arrested with a Tenderloin Girl.

NEW YORK, Dec. 6 .- Edward Burnz, nineteen years old, is lodged at police headquarters in this city for the murder of Herbert B. Fellows, station agent and postmaster at Scarsdale, N. Y., on Monday last. Captain McClusky, chief of the detective bureau, has announced that Burnz has confessed to him that he had murdered Fellows by shooting him, and that he had also robbed him. Burnz was arrested shortly after 2 o'clock this morning in Madison-square Garden, while he was looking at the bicycle race with a young woman named Ella Smith, whom he had met an hour previously in a Tenderloin rates reported that such privilege was giv- cafe. Burnz made no effort to conceal his identity and did not appear to be disconcerted at the arrest. Sheriff William V. Molloy, of Westchester county, with a deputy and a detective of the New York Central Company named Wilson, and who resides at Scarsdale, and is acquainted with Burnz, arrived in this city last evening in search of Burnz. Knowing that Burnz was a "bicycle fiend," and would probably visit Madison-square Garden to ee the races, they went there at once. It was after midnight before Burnz made his appearance at the garden. He was at once recognized by Detective Wilson. Sheriff Molloy then told Burnz he would have to put him under arrest for the shooting made no effort of concealment, he indignantly denied any knowledge of the murder. Burnz and his companion were immediately taken to police headquarters, and the search of Burnz's person discovered \$57 in his possession. When asked where he got the money he replied: "None of your business. I've got as much right to money as anybody else." It was shown that the young woman was only a chance acquaintance and that she had no connection with the murder of Fellows. She was therefore released. Burnz will be taken back to Scarsdale.

Governor Will Offer a Reward.

FRANKFORT, Ky., Dec. 6.-When the news of the burning of Dick Coleman at the stake in Maysville reached Governor Bradley he said to your correspondent: "This is another terrible disgrace to Kentucky. This, together with the rest, will keep a decent man from ever coming into Kentucky." The Governor will offer a reward of \$500 each for the apprehension of the ringleaders in the crime. He has only five days of his administration remaining, but he will make an effort in that time to have the mob vigorously prosecuted.

GEN. YOUNG IS MISSING

JEWELRY For Men and Women.

HE HAS NOT BEEN HEARD FROM FOR OVER A WEEK.

Supposed to Be in Pursuit of Aguinaldo-Details of Colonel Parker's Fight at Vigan.

WASHINGTON, Dec. 6.-General Otis today cabled the War Department that he has had no word from General Young for a week. This is taken to indicate that Young is continuing his hot pursuit of Aguinaldo, and probably is in a country where he regards it as unsafe to use couriers. General Otis's dispatch, which follows, also gives an official account of Lieut. Col. Parker's engagement at Vigan:

"General Young, with thirteen companies of infantry and nine troops of cavairy, has not been heard from since the 28th ultimo. He was then about twenty miles south of Vigan. Most of the troops were marching to his support. He then had with him but three troops of cavalry, a battalion of the Thirty-third Infantry and the Macabebe scouts. One company of the Thirty-third Farker, of the Forty-fifth, reports from fantry, at 4 o'clock on the morning of the | four minutes north in declination. 4th, entering the city in the darkness. Severe fighting ensued and continued four hours, the enemy being driven out. They left behind forty dead, thirty-two prisoners, including many officers, and eightyfour rifles. The remainder are now on the outskirts entrenching. Parker says he can hold out indefinitely. He has plenty of rations and ammunition. His loss was eight enlisted men killed and three wounded. One hundred and sixty men now being transported from San Fabian to his relief. Young must be in vicinity of the large

force. Press advices from Manila say the insurgents were commanded by General Mino. The fighting was from house to house and almost from hand to hand. Col. Bisbee is sending reinforcements to Vigan on board the gunboat Wheeling. Colonel l'arker praised the bravely of the sick American soldiers. Every man who was able to stand handled a rifle during the attack.

Departure of Two Transports. SAN FRANCISCO, Dec. 6 .- The transports Sherman and Centennial sailed for Manila to-day. The Sherman carried the remaining battalions of the Forty-ninth Infantry, under command of Major Kirkham, and 157 recruits. The Centennial carries horses. Mgr. Chappelle, archbishop of New Or-

He Is Not in Favor of Pulling Down the Flag Anywhere.

MINNEAPOLIS, Minn., Dec. 6.-General John B. Gordon, of Georgia, now and for the past ten years commander-in-chief of the Confederate Veterans of America, made a declaration on the Philippine question to-day. He said: "My sympathies go out to the men who are fighting under the stars and stripes wherever they are, and I am not in favor of pulling the flag down.

Governor Jones Favors Expansion. LITTLE ROCK, Ark., Dec. 6 .- A stir has come in Arkansas political circles by the announcement to-day that Governor Dan W. Jones, who is a candidate for United States senator to succeed Senator Berry, has come out strongly in favor of expansion. He has heretofore been considered an opponent of that policy, along with Senator Berry, who is a candidate for re-election. Governor Jones stated in an interview to-day that the only salvation for the Southern States is the expansion of commerce by the opening of new markets in

Asia for Southern products, and that in or-

der to maintain and protect such com-

merce the Philippines must be retained by

the United States. Governor Jones's atti-

tude makes expansion the predominant issue in the senatorial race. Movements of Steamers.

Deadly Habits. The woman who is addicted to the terrible morphine habit knows that she is rapidly going down the steep hill that leads to

troubles. For relief they turn to the many alcoholic stimulants, malt extracts and other "compounds," so widely advertised to cure the ailments of women. These produce a false stimulation, and the suferer finds herself compelled to take more and more as time passes, and soon becomes an unwitting slave to strong drink. What a weakly woman needs is Dr. Pierce's Favorite Prescription, which contains not a grain of opium or a single drop of alcohol or other dangerous stimulant. It acts directly upon the womanly organs, stop-ping drains, restoring displacements and having a wonderfully beneficial effect upon the general health. Suffering women who wish to consult Dr. R. V. Pierce himself can do so by mail, addressing him at Buffalo, N. Y. He makes no charge whatever for

Mrs. Rena Hensel, of Massillon, Stark Co., Ohio, writes: "I had been troubled with chronic constipation and female weakness and doctore with different physicians, none of whom seemed to help me. I saw one of your advertisements and I thought I would try your medicines. I did so and with good results. Took two bottles of Dr. Pierce's Golden Medical Discovery and one of his 'Favorite Prescription' and I can say I am cured of my troubles, thanks to Dr. Pierce and his medicines. They do a world of good to those who give them a good trial."
